Notes:

1. The bank has adopted NFRS 9 for Expected Credit Loss Model and presented it in the financial statement as per the Expected Credit Loss Related Guidelines, 2024 issued by NRB. Provision for the quarter as per NRB Norms comes to the Higher side as compared to ECL Model hence, the bank has booked loan loss provisions as per NRB Norms.
2. Interest income recognition on loans and advances is recognized as per the Guidance Note on Interest Income Recognition, 2025 issued by NRB.
3. The loans and advances include accrued interest receivable, and staff loans are presented with net of impairment charges.
4. Regulatory adjustment on Accrued Interest Receivable, possible losses on Investment Property (NBA) and Interest Capitalized on Term Loan has been made as per NRB Directive.
5. Previous year figures have been reclassified and regrouped wherever necessary to make the same comparable with the current year's figure.
6. The above figures are subject to change upon otherwise as per the direction of the Regulators and/or Auditor.

Everest Bank Limited
Notes to the Interim Financial Statement
For the Quarter ended 30th Chaitra 2082

Basis of preparation

The interim financial statements of the Bank have been prepared in accordance with the Nepal Financial Reporting Standards (NFRS) adopted by the Accounting Standard Board of Nepal.

Statement of Compliance with NFRSs

The interim financial statements of the Bank have been prepared in accordance with Nepal Financial Reporting Standards (NFRS) to the extent applicable and as issued by Accounting Standard Board- Nepal

Use of Estimates, assumptions and judgments

The preparation of the interim financial statements in accordance with NFRS requires management to make judgements, estimates and assumptions in applying the accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Due to the inherent uncertainty in making estimates, actual results reported in future periods may be based upon amounts which differ from those estimates. Estimates, judgements and assumptions are periodically evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognized prospectively.

Changes in Accounting policies

The bank has adopted NFRS 09 for classification of financial instruments, earlier classified as per NAS 39, as issued by ASB Nepal, which resulted in changes in accounting policies and adjustments to the amounts previously recognized in the interim financial statements. The bank has adopted NFRS 9 for Expected Credit Loss Model and presented in the financial statement as per the Expected Credit Loss Related Guidelines, 2024 issued by NRB.

Significant Accounting Policies

a. Basis of Measurement

The interim financial statements have been prepared on historical cost basis except for following material items in the statement of financial position:

- Financial assets other than measured at amortized cost are measured at fair value
- Non-derivative financial instruments at fair value through profit or loss are measured at fair value
- Derivative financial instruments are measured at fair value, if any
- Inventories are measured at cost or net realizable value whichever is lower
- Net defined benefit liabilities are measured at Present Value of Defined Benefits Obligation less the Total Plan Assets.

b. Basis of Consolidation

The bank does not have control over any other entity for consolidation of financial statements.

Investments in associates are accounted for in financial statements as per equity method although associate's financial statements are not prepared using uniform accounting policies for like transactions and events in similar circumstances as it is impracticable to do so.

c. Cash and Cash Equivalent

Cash and cash equivalent comprise the total amount of cash-in -hand, balances with other bank and financial institutions, money at call and short notice, and highly liquid financial assets with original maturities period of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value and are used by the bank in the management of its short-term commitments.

Cash and Cash equivalents are measured at amortized cost in the statement of financial position.

Everest Bank Limited
Notes to the Interim Financial Statement
For the Quarter ended 30th Chaitra 2082

d. Financial assets and Financial liabilities

The bank classifies its financial assets into the following measurement categories:

- a) financial assets held at fair value through profit or loss;
- b) financial assets held at fair value through Other Comprehensive Income, and
- c) financial assets held at amortized cost.

Financial liabilities are classified as either

- a) held at fair value through profit or loss, or
- b) held at amortized cost.

e. Recognition

The Bank initially recognizes a financial asset or a financial liability in its statement of financial position when, and only when, it becomes party to the contractual provisions of an instrument. The Bank initially recognize loans and advances, deposits; and debt securities/ subordinated liabilities issued on the date that they are originated which is the date that the Bank becomes party to the contractual provisions of the instruments. Investments in equity instruments, bonds, debenture, Government securities, NRB bond or deposit auction, reverse repos, outright purchase are recognized on trade date at which the Bank commits to purchase/ acquire the financial assets. Regular purchase and sale of financial assets are recognized on trade date.

f. Measurement

Initial Measurement

At initial recognition, the bank measures a financial assets or financial liability at its fair value plus or minus, in the case of financial asset or financial liability not at fair value through profit or loss, transaction cost that are incremental and directly attributable to the acquisition or issue of the financial assets or financial liability, such as commission and fees. The transaction cost of financial assets and financial liabilities carried at fair value through profit of loss are expensed in profit or loss.

Subsequent Measurement

A financial asset or financial liability is subsequently measured either at fair value or at amortized cost based on the classification of the financial asset or liability.

g. Derecognition

Derecognition of Financial Assets

The Bank derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or when it transfers the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or in which the Bank neither transfers nor retains substantially all the risks and rewards of ownership and it does not retain control of the financial asset.

Derecognition of Financial Liabilities

A financial liability is derecognized when, and only when it is extinguished (i.e. when the obligation specified in contract is discharged, cancelled or expired). If the liability is renegotiated with the original lender on substantially different contractual terms, the original liability is derecognized and new liability is recognized.

Determination of Fair Value

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group has access at that date.

Everest Bank Limited
Notes to the Interim Financial Statement
For the Quarter ended 30th Chaitra 2082

h. Impairment

At each reporting date, the Bank assesses whether there is objective evidence that a financial asset or group of financial assets not carried at fair value through The Statement of Profit or Loss are impaired.

However, in case of loans and advances, impairment loss is measured as the higher of amount derived as per norms prescribed by Nepal Rastra Bank for loan loss provision and amount determined as per NFRS 9.

i. Trading Assets

The Bank classifies financial assets or financial liabilities as held for trading when they have been purchased or issued primarily for short term profit making through trading activities or form part of a portfolio of financial instruments that are managed together for which there is evidence of a recent pattern of short-term profit taking. Held for trading assets and liabilities are recorded and measured in the statement of financial position at fair value. Changes in fair value are recognized in net trading income. Interest and dividend income or expense is recorded in net trading income according to the terms of the contract, or when the right to payment has been established. Included in this classification are debt securities, equities, short positions and customer loans that have been acquired principally for the purpose of selling or repurchasing in the near term.

j. Property, Plant and Equipment

All Property, plant and equipment is stated at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the assets. Subsequent costs are included in the asset's carrying amount or are recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the bank and the cost of the item can be measured reliably.

k. Goodwill and Intangible assets

Intangible assets include externally generated capitalized software enhancements. Intangible assets, which have been determined to have a finite useful life, are amortized on a straight-line basis over their estimated useful life. Intangible assets with finite useful lives are reviewed at each reporting date to assess whether there is any indication that they are impaired. If any such indication exists the recoverable amount of the asset is determined and, in the event, that the asset's carrying amount is greater than its recoverable amount, it is written down immediately.

l. Investment Property and Noncurrent Assets held for sale

Investment Property

Investment property is the land or building or both held either for rental income or for capital appreciation or for both, but not sold in ordinary course of business and owner-occupied property.

Non-Current Assets held for sale

Non-current assets (or disposal groups) are classified as assets held for sale and carried at lower of carrying amount and fair value less costs to sell if their carrying amount is recovered principally through a sale transaction rather than through continuing use. The assets are not depreciated or amortized while they are classified as held for sale. Any impairment loss on initial classification and subsequent measurement is recognized as an expense. Any subsequent increase in fair value less costs to sell (not exceeding the accumulated impairment loss that has been previously recognized) is recognized in the statement of Profit or Loss.

m. Income Tax

Current income tax which is payable on taxable profits is recognized as an expense in the period in which the profits arise.

Everest Bank Limited
Notes to the Interim Financial Statement
For the Quarter ended 30th Chaitra 2082

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in Nepal.

n. Deposit, Debt Securities issued and subordinated liabilities

The estimated fair value of deposits with no stated maturity period is the amount repayable on demand. The estimated fair value of fixed interest bearing deposits and other borrowings without quoted market prices is based on discounting cash flows using the prevailing market rates for debts with a similar credit risk and remaining maturity period.

Debentures are recognized at amortized cost using effective interest rates. The coupon rates of these instruments represent the effective interest rates.

o. Provisions

Provisions are recognized when the Bank has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. When the effect of the time value of money is material, the Bank determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in Statement of Profit or Loss net of any reimbursement in other operating expenses

p. Revenue Recognition

Revenue is recognized only when it is probable that the economic benefits associated with the transaction will flow to the entity. In some cases, this may not be probable until the consideration is received or until an uncertainty is removed.

(i) Interest income

Interest income is recognized in the profit or loss as per accrual basis of accounting and as per NRB Circular No. 1 of F/Y 2076-77- Interest Income Recognition.

(ii) Fees and Commission

Fees and commission income including management fee, service charges, and syndication fee and forex transaction commission are recognized as the related services are performed.

(iii) Dividend Income

Dividend on investment in resident company is recognized when the right to receive payment is established. Dividend income are presented in net trading income, net income from other financial instruments at fair value through profit or loss or other revenue based on the underlying classification of the equity instruments.

(iv) Net trading income

Gain and losses arising in changes in fair value of financial instrument held at fair value through profit or loss are included in Statement of Profit or Loss in the period in which they arise.

(v) Interest Expenses

Interest expense on all financial liabilities including deposits are recognized in profit or loss using an effective interest rate method. Interest expense on all trading liabilities are considered to be incidental to the Bank's trading operations and are presented together with all other changes in the fair value of trading assets and liabilities in net trading income.

(vi) Employees Benefits

Short-term employee benefits, such as salaries, paid absences, performance-based cash awards and social security costs are recognized over the period in which the employees provide the related services.

Everest Bank Limited
Notes to the Interim Financial Statement
For the Quarter ended 30th Chaitra 2082

(vii) Foreign Currency Translation

The interim financial statements are presented in Nepalese Rupees, which is the Company's functional and presentation currency.

q. Share Capital and Reserve

The Bank applies NAS 32, Financial Instruments: Presentation, to determine whether funding is either a financial liability (debt) or equity. Issued financial instruments or their components are classified as liabilities if the contractual arrangement results in the bank having a present obligation to either deliver cash or another financial asset, or a variable number of equity shares, to the holder of the instrument.

Everest Bank Limited

Management Analysis

The contemporary economic landscape—both in Nepal and globally—is shaped by Iran war and blockage of strait of Hormuz, inflationary pressures, geopolitical tensions, climate risks, and rapid technological change.

The blockage of the Strait of Hormuz has triggered a severe economic crisis in Nepal. Despite being geographically distant, Nepal's 100% dependence on fuel and gas imports makes it acutely vulnerable to this maritime disruption. Major disruption in key sectors are tourism, agriculture where chemical fertilizers are largely imported from Gulf countries and manufacturing industries hit by fuel and gas.

Remittances from the Gulf sustain Nepal's economy, but the conflict and blockage have made work environments unsafe for Nepali migrant workers in countries like UAE, Saudi Arabia, and Qatar.

The IMF and World Bank have downgraded global GDP growth projections, warning that the shock could lower growth by an annualized 2.9 percentage points in coming months.

The world economy is currently experiencing moderate but uneven growth. Advanced economies face slowing growth due to tight monetary policies aimed at controlling inflation, while many developing economies struggle with debt burdens, currency volatility, and external shocks.

Key global macro trends include:

- High interest rates maintained by major central banks to curb inflation
- Slowing global trade due to geopolitical tensions and protectionist tendencies
- Rising public debt in both developed and developing countries
- Energy and food price volatility, amplified by climate change and conflicts

The post-election landscape in Nepal as of April 2026 is defined by a historic political shift and the formation of a majority government led by the Rastriya Swatantra Party (RSP), Following a landslide victory in the March 5 general elections. With this, people in general now expects political stability, stable policies, improved service delivery and better governance.

The bank is continually enhancing and implementing its digital strategies while modernizing its IT infrastructure to deliver a smoother experience for customers. Its goal is to sustain a competitive advantage over other institutions, which is crucial for maintaining market competitiveness. We are proactively expanding our reach to connect with the unbanked population and support retail and small businesses in diverse areas throughout the country.

The bank is dedicated to achieving its financial goals by prioritizing sustainable profitability, improving its assets quality, strengthening its capital and meticulously overseeing the growth of its balance sheet. Our robust business model underpins our commitment to responsible expansion while ensuring exceptional customer satisfaction.

Details relating to legal action

No major legal proceedings have been committed by or against the bank, its promoters, or its directors concerning violations of current laws, criminal activities, or financial misconduct, apart from those commonly linked to regular banking practices.

Analysis of share transactions and progress of the bank

(i) The management holds a neutral stance regarding the bank's share transactions in the securities market, as the pricing and trading of its shares are determined by open market activities at the Nepal Stock Exchange.

(ii) This section provides the bank's highest, lowest, and closing share prices, as well as the total volume of shares traded and the number of trading days during the quarter.

Problems and Challenges

Internal Challenges

- The banking sector is presently facing a surplus of liquidity.
- Business expansion is constrained by restrictions on capital access.
- Managing operational expenses is proving to be challenging.
- Attracting qualified and experienced talent, along with providing adequate local training, remains a significant hurdle.
- It is becoming increasingly difficult to generate revenue from non-interest sources.
- Ensuring prompt loan recovery and sustaining high-quality risk assets continue to be persistent challenges.

External Challenges

- Geopolitical tensions, policy uncertainty and traded tariff/disputes, ongoing conflicts in the Middle East and other global hotspots are likely to pose a significant threat to economic stability.
- Constant regulatory changes at both national and international levels can create compliance challenges, necessitating substantial modifications to operational processes.
- Variations in interest rates can affect a bank's net interest margin and profitability, as well as impact its lending and deposit activities.
- A heightened emphasis on Environmental, Social, and Governance (ESG) factors may compel banks to adapt their operations to sustainable practices, influencing their lending and investment choices.
- There is a rising trend in cyber fraud incidents. Lack of Cyber security Awareness and difficult Terrain makes branch expansion costly, especially in rural areas.
Nepal is still added to the Financial Action Task Force (FATF) Grey List. This would have significant consequences for Nepal's banking Industry and financial sector, as well as the broader economy.

Strategy

To improve the bank's operations, prioritize digital innovation and adopt digital banking solutions to enhance customer experience, bank is offering digital and online services to facilitate smooth & seamless financial and non-financial transactions.

- Evaluate customer feedback and market dynamics to remain competitive.
- To gain insight into customer preferences, provide personalized and tailored services, and enhance customer relationships.
- Launch new financial products and services to broaden the customer base and address their variety of needs.
- Efficiently manage assets and liabilities while optimizing internal processes to lower costs, boost efficiency, and deliver faster services to clients.
- Establish strong cyber-security protocols.
- Invest in employee training to enhance service quality. Educate customers about financial literacy, Banking products, services, and digital platforms to promote their adoption and support financial inclusion in underserved areas.
- Continuously monitor both internal and external environmental shifts, adopting a proactive stance. Allocate resources to strategic marketing initiatives to increase awareness of the bank's offerings and strengthen its brand image.
- Develop a comprehensive risk management framework alongside a resilient AML/CFT strategy. Enhancing risk management practices to ensure financial stability and foster customer trust.
